DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 15 of claim 22 after the word "input" the phrase —of the multiplier a succession— has been deleted.

Allowable Subject Matter

2. Claims 2-3, 5-10, and 12-22 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 2-3, 5-10, 13-20, and 22 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 4 further comprising a controller (15) which adjusts a phase error between the first modulator (MD1) and the second modulator (MD2) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 12 and 21 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 13 wherein the transmission circuit also comprises an amplifier (AMP) and a control circuit to provide a loop bandwidth control signal (CUR) an On/Off signal (PAON) for turning on or off the amplifier (AMP), a reference signal (REF), and a baseband signal (TX_DATA) in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
